Finest Italian handmade

NEG 1512

*extended range
neodymium*

NEG 1512 represents the guitar cabinet innovation.

This cabinet is equipped with two speakers :

1x12" Celestion Vintage 30 (or Jensen under request) on the upper side,

1x15" Jensen Neodymium on the lower side.

This 15" neodymium speaker has some excellent characteristics:

very light weight and a wide frequency response keeping sound definite at high power, too.

The NEG 1512 cabinet with these two kind of speakers combined with an internal volume similar to a bass cabinet let you obtain a sound with a great impact comparable to a 4x12".

The sound of your guitar will become "fat" an incisive with a surprising low frequencies response.

Specifications

- Power: 250 W rms
- Impedence : 8 ohm
- Dimensions : 720 x 825 x 330 mm
- Material : Finnish Plywood Birch
- Weight : 28 kg

The cabinet is fitted with 4 plug-in wheels.

All our units are hand made. For this reason you could find design or sound differences.
All this as guarantee that you bought a true hand made product.
