# USER'S MANUAL

# *XL-Cube*

Before using, please take few minutes to get familiar with your Amplifier and carefully read the advices, explanations hereby reported. All our units are hand made. For this reason you could find design or sound differences. All this as guarantee that you bought a true hand-made product.

*Finest Italian handmade*

# XL Cab

Brunetti company is proud to present its new speaker cabinet named *XL Cab*.

Its structure, a 4x12", is characterized by high quality manufacturing systems matched with the most sophisticated electro-acoustic research.

*XL Cab* uses particular speakers produced in USA under Brunetti specifications. We have used all our experience in Live and Recording techniques to realize a product that can faithfully reproduce the musician's style. When the electric guitar reaches its maximum efficiency, *XL Cab* has an extremely soft and faithful frequency response. When playing in a Live situation, this particular characteristic becomes extremely important to assure the best listening to the audience. Our research and tests have been concentrated especially in this feature. When the guitarist plays together with his group he doesn't usually obtain the same performances as when he plays alone; *XL Cab* is able to reproduce faithfully both kind of performances.

*XL Cab* was designed following a **Half Back Open** configuration which allows a different frequency response and dynamic. It is possible to place a microphone to have the best rear diffusion. This particular technique, used in Live and recording systems, improves the sound definition and precision. The rear part can be opened unscrewing the panel.

We supply *XL Cab* with 4 plug-in wheels.

*XL Cab* is completely hand-made assembled.

## Speakers

## Configuration

|                                 |  |
|---------------------------------|--|
| Jensen Custom 100W 16 Ohm       | 2 x 8 Ohm 200 W stereo – 1 x 16 Ohm 400 W mono |
| Celestion Vintage 30 16 Ohm 60W | 2 x 8 Ohm 120 W stereo – 1 x 16 Ohm 240 W mono |
| Celestion Green Back 16 Ohm 25W | 2 x 8 Ohm 50 W stereo – 1 x 16 Ohm 100 W mono  |

## Specifications

- Dimensions : 810 x 760 x 360 mm
- Material : Finnish Plywood Birch
- Weight : 32 kg

All our units are hand made. For this reason you could find design or sound differences. All this as guarantee that you bought a true hand made product.
